Annual Utilization Report of Primary Care Clinics – 1998

GENERAL INFORMATION

The Office of Statewide Health Planning and Development (OSHPD) annually produces these files of data collected *via* the *Annual Utilization Report of Primary Care Clinics*. The data files include utilization information from reports filed by California's licensed Primary Care Clinics (licensed as Community or Free Clinics). OSHPD staff reviews each report for correctness and completeness. OSHPD contacts clinic staff when data reported appear incomplete or do not conform to established edits. If necessary, corrections are made to the data in consultation with the clinic staff. Once the review process for all reports has been completed, the database is closed and made available to the public. These data files contain data from the 1998 calendar year: January 1, 1998 through December 31, 1998.

This documentation includes descriptions of each data element (field). It may also be helpful to review the *Annual Utilization Report of Primary Care Clinics* - 1998 reporting form. A copy of the form in PDF file format is included in Appendix B. Users can also view or download a copy of the reporting form instructions by accessing the OSHPD website or clicking this link:

http://www.oshpd.state.ca.us/hid/infores/clinic/util/index.htm

Due to the large number of data items, the data are separated into two files. **Data File One** (clin98p1.txt) contains basic clinic identification information and the data items from the *Annual Utilization Report of Primary Care Clinics*, pages 0 through 6. **Data File Two** (clin98p2.txt) contains the data items from report pages 7 through 10.

Number of Clinics and Data File Changes from Prior Year

There are 691 clinics included in the data files. Each line (row) represents one clinic. There are 466 data fields (columns) that are spread over the two data files.

A new column, "Bad Debt," was added to most rows of the "Financial and Utilization Data" table on page 7. This adds 13 more data fields when compared to the 1997 database.

Importing Data Files

Each data file is in a comma-delimited text (TXT) format for use in spreadsheet and database applications.

Most spreadsheet or database programs require that you import files through its import feature. We suggest that you review your software's import features before you double-click the TXT files in this package. (Double-clicking a TXT file with Windows Explorer, for example, will only result in Wordpad or Notepad automatically opening the file. TXT files must be imported into your application). If you are having difficulties processing the TXT file format, please review the Readme.txt guide that is included in this package. If you continue to have problems, please contact the Healthcare Information Resource Center (HIRC) at (916) 322-2814. Be aware that the OSHPD staff can only answer technical data questions. You must contact the software company's technical support service regarding operation of your software.

The user may want to consider particular formats for the following fields during the import process:

| Page Line Column | <u>Field Name</u> | Format Consideration |
|------------------|-------------------|--|
| OSHPD_ID | OSHPD_ID | Use the same format in both data files |
| COUNTY | COUNTY | Leading zeros of 2-digit county codes |
| HSA | HSA | Leading zeros, 2-digit health service area codes |
| HFPA | HFPA | Leading zeros, hlth. fac. planning area codes |
| P000103 | RPT_STATUS | Leading zeros of status codes |
| P020101 | BEG_DATE | Dates |
| P020102 | END_DATE | Dates |

Header Rows

The first two rows in each data file are header rows containing field titles. The first row contains abbreviated English field descriptions. The second row displays field names that include the respective input document coordinates from the *Annual Utilization Report of Primary Care Clinics*, by page, line and column number. For example, the total number of clinic "Patients" is reported on page 2, line 19, column 1. In the second header row, the field name is P021901. (Field names for all reported data begin with a constant "P"). Note-the inclusion of two header rows is useful, however, users should use care when doing sorts that automatically include both header rows. Also, some titles in the first header row may need to be shortened as some software have limitations of 8 characters for field names.

Data File Documentation Description and Specifications Layout

Spreadsheet Columns

Indicates the column in which the data item is located if the file is imported into a spreadsheet. The columns are in alphabetical order.

Page, Line, & Column

This item represents the data field's coordinates by report page, line, and column in the the *Annual Utilization Report of Primary Care Clinics* input document.

Field Name

This lists the English abbreviated name for each field.

Field Description and Code Definitions

This field provides more information about the data item and will include a brief description or list of any codes or numbers that may affect the data item.

Report the following for each payment source for encounters taking place January through December of the reporting year only:

COL 1) Number of patients receiving services funded by the payment source listed.

COL 2) Number of encounters

COL 3) Amount clinic would normally charge at full rates for services provided during the reporting year only. Exceptions: for such programs as 95-210 or 95-210 look-alike, where the reimbursement is greater than the clinic 100% charge, use program reimbursement rate. In this case there will be no Write-off/Adjustments. Also report the <u>value</u> of free services provided by Free clinics in this column.

COL 4) Revenues collected and <u>anticipated</u> to be collected for the reporting year encounters only (COL 2). This <u>does not include</u> payments received for services provided in years prior to the reporting year. See "Aging of Accounts" below. There can be no negative numbers on this page.

 $\rm COL~5)$ Total amount of write-offs and adjustments (sum of Columns 6-9) for services provided during the reporting year only

COL 6) Amount written off due to sliding-fee (income-determined) adjustments for services provided during the reporting year only. Eligibility determinations made by other programs, such as Medi-Cal, may be used to supplement the clinic's sliding fee scale process if based on written policy of the clinic and approved by the clinic's governing board.

 $\mbox{COL 7})$ Amount of free services provided during the reporting year. Free services are those provided at no cost to clients.

COL 8) Contractual Adjustment is the difference between the facility's 100% charge for a service or procedure and the lessor amount received because of a contractual agreement between the clinic and the Third Party Payer.

COL 9) Bad Debt is the amount not received when payment is <u>expected</u>. Bad debt includes unpaid sliding fee scale payments and patient co-payments.
